Analysis Plus to Auction Final Run of Collectable Camo Oval Instrument Cables

Auction of the last 20 specially configured cables to help Guitars 4 Vets

FLUSHING, MI – June 21, 2022 – Analysis Plus, known for their high-end cables and connectors for musicians and pro audio, has announced an upcoming auction for the limited collector’s edition of their **Camo Oval Instrument Cable**. The final run of 20 (out of 25) cables will be auctioned off with 60% of the proceeds being donated to [Guitars 4 Vets](#), a 501(c)3 non-profit dedicated to providing relief to struggling veterans through the healing power of music and community.

The Camo Oval is a throwback cable that was manufactured years ago for a brief time. Its design and construction are very similar to one of their current, and long-time bestsellers, the Yellow Oval Instrument Cable. Adding to their uniqueness, each of these final 20 cables is fitted with specially designed Vintage Connectors.

The cables are made from the last, sealed spool of Camo Oval and completed with the remaining batch of these unusual connector plugs not available anywhere else. Each of these cables comes with a signed Certificate of Authenticity that is one of a kind, uniquely numbered, and printed individually. While these are truly high-end, functional cables, they are expected to be popular among collectors.

The Camo Oval Auction is set to begin on July 1, 2022, and will run through the entire month, ending on July 31, 2022. Each of the 20 cables will be listed as a separate item according to its certificate number with an opening bid of \$99. Auction participants can bid on as many of the 20 cables individually as they like.

According to company president, Shari Markel, “Launching this auction on Independence Day weekend is great timing to make this wonderful contribution to Guitars 4 Vets, whose mission is to assist veterans who have given their service to this country. We appreciate the work they are doing and look forward to supporting it.”

More information about the auction is available on the Analysis Plus Pro Audio website at: <https://proaudio.analysis.plus/camo-oval/>.

About Analysis Plus

Now in its 29th year, Analysis Plus began life as a scientific research and design company and is now focused primarily on two markets: Music/Pro Audio and high-end Home Audio. Their proprietary Hollow Oval Design cables are used by discerning musicians, pro audio techs, and audiophiles alike around the globe. Their patented QiJACK takes input/output jacks to the next level and beyond. Get more detailed information at: <https://analysis.plus>.
